

BASIC HOSPITAL

BASIC PLUS

BASIC HOSPITAL BASIC PLUS

With Basic Hospital (Basic Plus) cover, you can get treated by your choice of doctor in a public hospital (with a few services covered in a private hospital).

This cover has a \$300 excess.

SCOPE OF COVER

The categories listed under 'Hospital Services' provide a general overview of what's included in your cover. It's important to know exactly what you're covered for, so we've provided detailed information on our website. To find out more go to unihealthinsurance.com.au/basic-hospital-basic-plus

IMPORTANT THINGS TO KNOW

MEDICAL COSTS AND THE 'GAP'

Medicare sets a fee for all services called the Medicare Benefits Schedule (MBS). Together with Medicare, we'll cover you for the MBS fee. When doctors charge above the MBS fee, that's when you'll have out-of-pocket costs or a 'gap'. Always check with your doctor to see if there'll be any additional charges before you receive treatment.

ACCESS GAP COVER

Access Gap is a billing scheme that can help you minimise, or avoid, out-of-pocket costs for in-hospital (inpatient) specialist treatment.

To find out more or check which specialists have treated other patients under Access Gap cover, visit unihealthinsurance.com.au/agc

WAITING PERIODS

Waiting periods may apply if you're new to private health insurance, or if you upgrade to a higher level of cover (with us or when you switch from another fund).

If you leave another health fund, you need to join us within 60 days to avoid re-serving any applicable waiting periods. You don't have to wait if you switch from another fund to the same or lower cover with us, and you've already served your waiting periods.

| HOSPITAL WAITING PERIODS | S |
|---|-----------|
| Pre-existing conditions | 12 months |
| Pregnancy and birth | 9 months |
| Hospital psychiatric services, Rehabilitation, Palliative care | 2 months |
| All other hospital services | 2 months |
| Ambulance transport | 1 day |

FXCFSS

Excess amounts are paid once per person, per calendar year (if you use your Hospital cover in that time).

PRE-EXISTING CONDITIONS

A pre-existing condition is an illness, ailment or condition where the signs or symptoms existed at any time during the six months before you got your Hospital cover (or upgraded to a higher level of cover).

Where relevant, we appoint a medical practitioner

to determine whether you have a pre-existing condition, based on information provided from your treating doctor or specialist.

RESTRICTED SERVICES

In a public hospital:

- We pay accommodation (up to the government fee for a shared room).
- You pay any excess on your cover and the balance of your accommodation costs.

In a private hospital:

- **We pay** accommodation (up to the government fee for a shared room).
- You pay any excess on your cover, the balance of your accommodation costs, and any other costs involved in your hospital stay.

WHAT WE WON'T PAY FOR

Things you can't claim for include:

- Services not recognised by Medicare (e.g. cosmetic surgery or laser eye surgery)
- medical procedures in a doctor's room
- specialist appointments (including scans, blood tests)
- prostheses in excess of approved benefits in the Government's Prostheses List
- non-medical items such as TV hire, parking, etc.
- discharge medication
- services received during any period when your membership is unfinancial or suspended
- services not included in your cover or for which you are serving waiting periods
- hospital treatment received overseas
- services where benefits are payable from a third party (i.e. compensation).

BEFORE GOING TO HOSPITAL

Before going to hospital, call us so we can confirm what you're covered for, and any potential outof-pocket charges for your procedure.

AGREEMENT HOSPITALS:

An agreement hospital is a private hospital that we have a contract with. Check your specialist can treat you at an agreement hospital, as this can help minimise out-of-pocket costs.
